⭐ FIRST-TIME CRUISER BUDGET TIPS

Don't budget only for the advertised cabin price. Taxes, gratuities, airfare, hotel, transportation and onboard purchases can significantly change the total cost of your vacation.

💳 Credit Card vs. Debit Card

Carnival may place authorization holds on the card connected to your onboard Sail & Sign account.

If you use a **debit card**, those holds can temporarily reduce the money available in your checking account.

If available and appropriate for you, using a **credit card** for your onboard account may help avoid tying up your everyday cash.

Always have a backup payment method.

💵 Keep an Emergency Cushion

We recommend budgeting at least:

$_____ extra for unexpected expenses.

Unexpected costs can include transportation changes, flight delays, baggage fees, medications, meals, replacement items or changes in travel plans.

✈️ Compare BOTH Airports

Before booking airfare, compare:

LGB — Long Beach Airport
Closer and generally more convenient to the cruise port.

LAX — Los Angeles International Airport
Often more flight options, but potentially higher transportation costs and longer travel time.

Look at the **TOTAL trip cost**, not airfare alone.

🏨 Arrive One Day Early If Possible

Our strongest recommendation is to arrive in Southern California on:

Saturday

A hotel night costs more—but missing the cruise because of a delayed Sunday flight could cost considerably more.

🌴 Save Some Money for FUN

Don't spend every dollar before you board!

Leave room in your budget for spontaneous dinners, activities, group outings, Cabo adventures and things you didn't know you'd want until you're actually there.
